We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.

Poltrona Frau R&D

In the late 1960s, Poltrona Frau created an internal structure to manage research and development. While preserving the know-how of expert craftsmanship, highly specialized design technicians develop new ideas in a state-of-the-art prototype laboratory at the Centre for Research and Development in Italy. Here, they experiment with new materials, new techniques, and creating new forms.
