

HAWORTH emeco

1951

Stool

This stacking stool elevates its sibling side chair, a reinterpretation of a classic Emeco chair from 1951. The new version retains Emeco's DNA—simple, strong, utilitarian—with a modern look inspired by luxury car design. The hand-brushed aluminum frame is combined with a seat and back produced from recycled plastic, making 1951 suitable for outdoor use. Complement with the stacking side chair.

Details

- Frame made from 80% recycled aluminum
- Hand-brushed finish
- Recycled PET seat and back available in six colors
- Felt or plastic glides available
- Suitable for indoor and outdoor use (special care required for outdoor settings – refer to the Ancillary Brands Surface Care Instructions for details)
- Stacks six high
- Companion stacking side chair also available

Certifications

- Meets ANSI/BIFMA X5.1 Standard for General-Purpose Office Chairs

Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.
