

HAWORTH

Composites

Stool

Maple hardwood construction and foam padding form the foundation of the Composites stool, a durable, comfortable seat that complements almost any space. Mortise-and-tenon joinery, cross-locked with dowels and reinforced with corner blocks, ensures strength and stability. The armless stool features a brass kickplate, bringing a touch of elegance to the maple finish. A companion guest chair is also available.

Details

- Maple hardwood construction
- Mortise-and-tenon joinery
- Cross-locked dowels reinforced with corner blocks for durability
- Seat and back formed from precision molded foam on webbed suspension
- Guest chair available

Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.
