Stool

HAWORTH

Emeco Stool designed by Phillipe Starck

The Museum of Modern Art commissioned Philippe Starck and Emeco® to create a simple stool in honor of one of Chicago's most esteemed architects. The resulting design, with a circle inside the square frame, is both practical and sophisticated. Available in three different heights, the stool features two distinct finishes: a matte, hand-brushed finish and a shiny, hand-polished finish.

Details

- 80% recycled aluminum base and frame
- Hand-brushed, clear-anodized finish suitable for outdoor use
- Low stool stacks four high
- Handmade in the United States
- Light-weight, non-corrosive, fire resistant, and guaranteed for life

Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.

Made in the USA
