Forest

Stool

Forest seating is a modern take on a classic, organic design. The stool frame's intriguing openings evoke tree branches silhouetted in a forest. Engineered to weather the elements, the Forest stool brings comfort and vitality to patio, café, and dining settings, indoors or out. The Forest stool is available in two heights. Forest side chairs and lounge chairs complement the stool offering.

Details

- Sculptural die-cut openings in the seat and back let water, air, and light pass through
- Stands up to heavy use and movement
- Seat is constructed of powder-coated die-cast aluminum in a unique, geometric pattern
- Legs are made of tubular die-cast aluminum
- The footrest is polished stainless steel
- Suitable for indoor or outdoor use
- Stool available in counter or bar height, low or high back
- Side chair and lounge chair are also available

Certifications

- Meets ANSI/BIFMA X5.1 Standard for General-Purpose Office Chairs

Sustainability

We are committed to designing all Haworth products using circular design principles through sustainable materials, product use extension, and responsible end of life.
