

HAWORTH emeco

Su

Stool

Named for a simple and unadorned Japanese aesthetic, Su has a warm, uncomplicated design. Smartly made from sustainable materials, the Su stool features the iconic Emeco® seat. They are ideal for spaces where people gather to connect and collaborate—indoors or out—from informal meeting areas and refresh spaces to cafés, patios, and lobbies.

Details

- Three heights for standard, counter, and bar applications
- Aluminum footrest on medium and high stools
- Anodized aluminum finish option is strong, lightweight, non-corrosive, and can be endlessly recycled
- Natural wood finish options complement a variety of looks
- Eco-concrete finish option is sustainably made from recycled glass bottles and calcium sulfoaluminate (CSA) concrete; suitable for outdoor use
- Optional recycled polyethylene terephthalate (PET) felt seat pad
- The Su family collection also includes tables

Nendo

Under the direction of architect Oki Sato, Nendo represents a cultured and refined alternative to self-celebrative design. In Japanese, nendo means clay; the Tokyo studio takes an approach to furniture and graphic design that is pliable and flexible as clay. In its challenge to create contemporary design, Nendo has been recognized internationally since its inception in 2002.
