HAWORTH

Compliance Statement

Haworth, an ISO 9001 registered manufacturer, hereby certifies the following products have been evaluated in accordance with the method specified and have achieved the performance as described below.

Product: Enclose® and Enclose® Frameless Glass

Requirement: **Attachment to Ceilings to Resist Non-Seismic Lateral Loads**

Enclose® and Enclose Frameless Glass full-height walls are to be supported by a ceiling. Spacing of the attachments of the ceiling track to the ceiling not to exceed 48 inches on center.

The adequacy of the ceiling to support the loads imposed, and to transfer the loads to the base building, are beyond the scope of this statement.
