PENCIL+ DRAWER
Installation Instructions

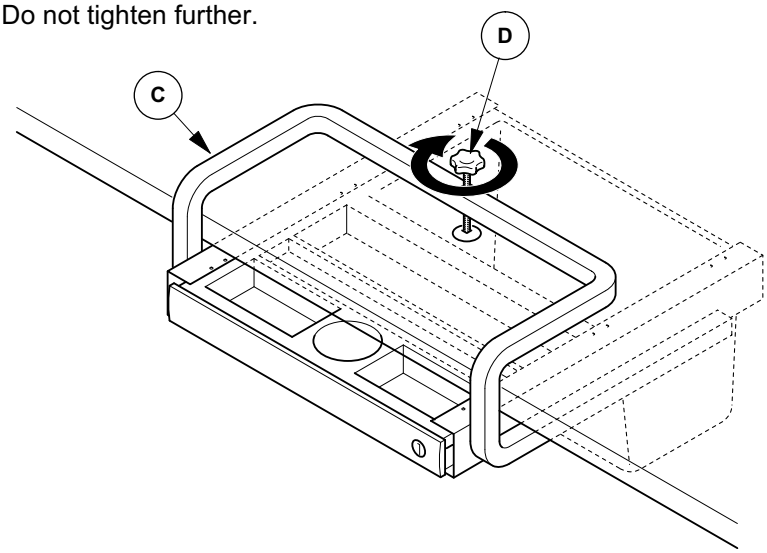

Tools Required

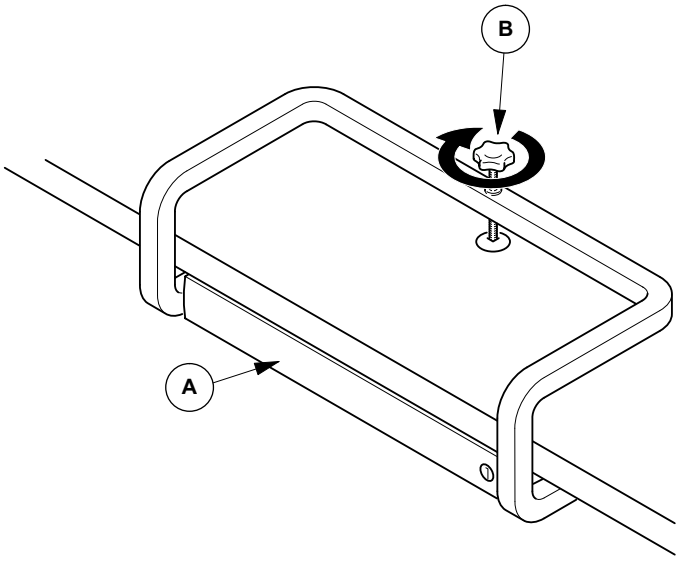

1 Slide installation clamp (A) onto drawer from rear as shown. Do not unlock drawer or extend suspension rails (B).

2 Slide installation clamp (C) bearing Pencil+ drawer over desk top until edge of clamp touches edge of desk top. Tighten clamping screw (D) until suspension rails touch underside of desk top. Do not tighten further.

3 Press on drawer face (A) to position drawer unit flush with edge of desk top. Tighten clamping screw (B) firmly.

4 Unlock and open and close drawer to check for smooth operation. Extend drawer fully. Drill 1/8" (3 mm) pilot holes and insert screws. Be careful to insert screws straight and **use only long drill and driver bits as provided with mounting clamp.** Remove clamp
