COMFORTO SYSTEM 12 SEATING ENHANCEMENTS
Installation Instructions

Book Rack

1. Position book rack behind chair seat as shown, hooks aligned with openings between chair seat and back frame.

2. Push each hook through opening to secure hooks on frame. Hooks are designed to fit tightly through openings. Use manual force as required **(Figs. 1, 1A)**.

3. Swing book rack forward, **slightly** twisting front of book rack to allow hooks to clear front chair legs and rest on chair leg brace **(Fig. 2)**.

4. While deflecting front hooks inward, one at a time, push down and backward until front hook tab is behind chair leg **(Fig. 2A)**. Release inward pressure, allowing hook tab to snap into place behind chair leg **(Fig. 2B)**.

   IMPORTANT! Do not bend hooks. Over-bent hooks will result in improper restraint of book rack. Book rack is properly assembled when front hook tabs are positioned behind chair legs **(Fig. 2B)**.

Tablet Arm Assembly

1. Before assembling arm to chair, slide clamp located on lower rod to position shown **(Fig. 3)**.

2. With the tablet arm in position shown, slide rear bracket onto rear leg of chair first. Pivot arm down to engage front bracket with front leg of chair **(Fig. 3)**.
NOTE: A rubber mallet may be used to completely engage brackets on chair legs.

3. After both brackets are engaged on chair legs and bottom rod of arm seats onto chair frame, tap clamp with mallet to secure clamp to chair frame **(Fig. 4)**.

CAUTION! Failure to properly position and secure clamp to chair frame may result in instability of tableboard.
